### Global Center

#### Purpose

The Civil Engineering Leader's Network (CELeN) was established as an initiative to contribute to the development of international community, and at the same time expand the scope of construction industry in Korea. CELeN consists of Korean civil engineers working at home and abroad and international civil engineers having close ties with Korea.

#### Organization

- The Global Center of KSCE performs the chapter of Korea, and the KSCEE represents the US region.

- The process of comprising the resident executives and officials for chapters of Southeast Asia, the Middle East, Japan, the Mediterranean countries, and South America is now in progress.

#### Activities

In March 2013, five undergraduate students of Adama Science & Technology University (ASTU) in Ethiopia has participated in the internship program, arranged by Hyundai E&C Co., Ltd., in the construction site of Qatar's Lusail Expressway for six months.

•• Undergraduate Students of ASTU, Ethiopia

#### Future Plans

- The 1<sup>st</sup> CELeN meeting will be held during the KSCE 2013 CONVENTION (October 23-25, 2013).
- Representatives from each chapter, international students and civil engineers in Korea will be invited.
- The Global Center plans to exchange information on the industrial trend of the region, the situation of Korean companies overseas, and the organization and activities of each chapter.
